

KITCHEN SUPPRESSION SYSTEM INSPECTION

Kitchen Suppression System Inspection

FoxCanada provides comprehensive kitchen suppression system inspection services to ensure the safety and compliance of commercial cooking environments.

Our certified technicians perform thorough evaluations of all system components, including nozzles, detection heads, control panels, and extinguishing agents, to verify proper operation. Inspections are conducted in accordance with NFPA 17A and fire safety codes, with detailed reports provided for regulatory compliance and maintenance records.

FoxCanada is an ISO9001:2015 Certified Company
