ATTENTION TRUCKERS

1. Truck operators that transport sour (H S) liquid products shall wear a personal H S monitor at all times and hold a valid H S Alive certificate.
2. ABSOLUTELY no smoking, or open light or flames.
3. Hard hat, safety glasses, safety work boots and proper fire retardant work clothing shall be worn by all personnel.
4. Truck operator to remain near loading area at all times.
5. The grounding cable shall be connected between tank truck and unloading/loading connection prior to making connections or opening dome cover.
6. Grounding cable shall remain attached until the dome cover is closed and all other connections have been removed.
7. Tank truck shall be secured by setting parking and/or setting wheel chocks.
8. No maintenance shall be carried out on the tank or truck while loading or unloading.
9. Truck operators are not permitted to climb tanks at any time.
10. Only explosion-proof portable lanterns or flashlights shall be used at the loading/unloading area.
11. No loading/unloading permitted during electrical storms of any degree.
12. Upon completion, perform double-check to ensure all valves are secure (closed and capped)
13. This procedure shall be strictly enforced by the area operator or ARC representative at worksite.
