The fire fighting broom  
that fights stubborn fires  
with . . .

**VERY  
STIFF  
ACTION**

## **For Use In Grass Fires, Forest Fires and Fire Investigation**

No. 1304 - The Perfex Fire Fighting Broom is designed for direct attack on fires in grass, leaves and underbrush. It is also commonly used by fire investigators in fire investigation activities to move and sift through debris without disturbing evidence. The Perfex Fire Fighting Broom is also used in fire line construction and for patrolling fire breaks. Since 1924 it has been standard equipment for Fire and Police Departments, Forestry Services, Parks and Recreation Departments.

This broom has been designed to exceed the rigorous demands of fire suppression work while being light enough to be easily carried to remote areas and used by firefighters under the harshest of conditions. Get more manpower on the scene faster and more economically than backpack pumps. The hardwood handle, stiff textured Palymra fiber and metal cap are locked under tons of pressure to prevent loose handles and fiber fallout. Bonded red finish, inside and out, resist chipping, flaking and rusting. Make the Perfex Fire Fighting Broom standard equipment on all your apparatus. Dimensions, 10" Fiber Trim, 53 3/4" overall. Twelve per carton.
