

RadarPro - Solar Powered Radar Speed Trailer

Introducing the **RadarPro**, our solar-powered trailer that delivers reliable and accurate speed monitoring in any location. This innovative product provides drivers with real-time feedback on their speed featuring a high visibility 15" LED display, double sided Maximum Speed Sign with positioning winch, Industrial Grade 80W solar panel and HD Grade trailer construction. The RadarPro is also equipped with advanced data logging & programming capabilities, allowing a simple bluetooth connection.

Tough, Smart & Simple.

Smart Solutions
